

# SYMPOSIUM & WORKSHOP

April 22-24, 2026

# LFAction!

## NEW DIMENSIONS IN RAPID TESTING

Experience a forward-looking  
symposium that combines  
innovation and practical application.

**Development  
Research &  
Innovations**

**Practical  
Workshop**

**Culture &  
Cuisine**

## Let's exchange and flow.

Take advantage of this unique opportunity for  
professional exchange and active participation in  
shaping the lateral flow diagnostics of tomorrow!

**SIGN UP!**

# Innovations across the full Lateral Flow value chain

This symposium offers a comprehensive overview of the latest developments in rapid diagnostic technologies – from initial concept to successful application in practice. Leading experts from research, development, manufacturing,

and regulatory affairs will share insights into how lateral flow assays are designed, optimized, and future-proofed today. The website [lfaction.vellap.de](http://lfaction.vellap.de) provides all essential information, including a complete list of keynote speakers.

**Dr. Alina Eilers**

CEO at Phaeosynt GmbH  
*Vegan Antibodies*

**Ben John**

CEO at Liftric GmbH  
*Smartphone quantification*

**Anthony Leembruggen**

CEO at KENOSHA B.V.  
*Lateral Flow Filters, Pads and Adhesives*

**Antje Tandetzky**

European Regulatory Affairs Director at  
ELLECOM  
*Regulation and Administration*
